Open display

Allows consumers to try and feel the watch on their wrist

Interactive experience

Invite customers to interact with and enjoy the apps on the watches

Charging function

Multiple sensors available support accessories security

Detachable holder

RJ11 connector, makes the re-merchandising easy and quick

Function	Description
Universal protection	Plungers on the base and holder (C Clip) trigger the alarm if released> Additional Mechanical security for the watch strap.
Charging-alarm	Alarm sounds audibly if the charging cable is removed (Function still works with no external power supply fitted)
Charging capacity	Provides an 5V output charging function.
Built-in battery	Back up 200mAH battery supports the alarm function without external power
Easy re-merchandising	RJ11 connector, detachable holder allows for easy device removal for after hours storage.
No Adhesive Cost Design	The physical watch strap fixing negates any additional adhesive costs
LED Indicator	Visual LED (Red) on holder plus on the base (Red & Blue) flash slowly when in normal working status but flash rapidly when alarm is triggered
2.4G remote control	2.4G remote control, no direction restriction, more reliable; password protection optional.
Alarm volume	>100dB
Security Extension	Even more secure – you can only mute/turn off the alarm within 3 seconds (New Feature)

Watch holder adhesive:
3M(HSE7330)

Stand base adhesive:
3M(HSE7300 Base)

Applicable models for display

Fits most current popular brands

Easy to use

Watch Strap Holder Solution

Suitable for watches that require charging or changing frequently

Watch Back Adhesive Solution

Suitable for watches with less demanding charging and changing requirements

For Smart Watches that require a 5V output via a Micro USB charging port we recommend that the watch is fixed to the holder using the adhesive pad and the watch strap is secured using the C Clip strap holder.

For Smart Watches with different charging ports we recommend that the watch is fixed using the strap holder only.

Smart watch charging solution

Suitable for watches with mini or micro USB connections

Series design

Uniform style and remote control system

The Perfect Customer Experience

Complete freedom user experience

External coiled cable gives total freedom of movement to the user

Open display
